PROPOSALS FOR LOAN.

The Secretary of the Treasury gives notice that subcriptions will be received for Coupon Treasury Notes, ayable three years from Aug. 15th, 1864, with semi-an qual interest at the rate of seven and three-tenths pe cent, per annum-principal and interest both to be paid in lawful money.

These notes will be convertible at the option of the holder at maturity, into six per cent. gold bearing bonds, payable not less than five nor more than twenty years from their date, as the Government may elect. They will be issued in denominations of fifty, one hundred, five hundred, one thousand, and five thousand dollars, and all subscriptions must be for fifty dellars or some multiple of fifty dollars.

The notes will be transmitted to the owners free of transportation charges as soon after the receipt of the origin d'Certificates of Deposit as they can be prepared. As he notes draw interest from August 15, persons makin deposits subsequent to that date must pay the nterest accrued from date of note to date of deposit.

It is believed that no securities offer so great inducements to lenders as those issued by the Government. In all other forms of indebtedness, the faith or ability of private parties or stock companies, or separate communities only, is pledged for payment, while the whole property of the country is held to secure the discharge of all the obligations of the United States.

While the Government offers the most liberal terms for its loans, it believes that the very strongest appea will be to the loyalty and patriotism of the people. Subscriptions will be received by the freasurer of the United States, at Washington, the sev-
